CARBONDALE

- Attached are the 56 day weights
- Nutritional health status has been great, for the past 4 days, now that the temperature is not fluctuating as much. However, intakes were up and down most of this last 28 day period due to the weather. There was one bull that came down sick but is much better and back to eating like a champ.
- We have had an outbreak of ringworm and trying to smoothen it but any suggestions would be taken to speed up the process AND of course we have bulls with warts but have been pulling off and applying castor oil.
- **Attention Consignors:** You will need to make sure you have turned in a weight so that you can obtain your ADJ 365 d WT from the association. If you are going to use the weight in this report the weights were obtained on 12/26/2017.
