

- Attached are the 28 day weights
- Nutritional health status has been great, and overall bull health has also been great. A couple bulls had some difficulty with learning the gate system so please watch for future reports as they grow accustomed to the system.
- Consignors- If your bull/bulls did not perform well please realize this is the first weigh date, the 56 day report will be released very soon!
- Please feel free to call or email with any questions
